SKILLS & TECH

- **Core:** JavaScript, TypeScript, Angular, React, React Native, Next.js, Redux
- **Backend:** Node.js, Express
- **Databases:** SQL, PostgreSQL, MongoDB, DynamoDB
- **Cloud & Tools:** AWS (SQS, Lambda, CloudFormation), Docker, Git
- **Methodologies & AI:** AI-Assisted Development (Cursor, Claude, LLMs), TDD, SDD

LANGUAGES

- Spanish (Native)
- English (C1)

NATIONALITY

Argentine / Spanish (EU Passport)

EDUCATIONAL BACKGROUND

- ***Full Stack Developer***

Henry Academy | 2020

- **Bachelor of Social Science**

Instituto Nuestra Señora del Socorro | 2019

WORK HISTORY

Coderio Full-Stack Developer / React Native | Mar 2025 – Present

- **Project: Trakion (Logistics Platform)**
  - Spearheaded the development of a real-time fleet management platform utilizing React, Node.js, and TypeScript.
  - Architected event-driven AWS backend services (SQS, Lambdas, CloudFormation) and Poller-Worker patterns for efficient telemetry data ingestion.
  - Accelerated the development lifecycle and maintained strict code quality by integrating AI-assisted tools (Cursor, Claude) alongside TDD and SDD methodologies.
- **Project: dLocal (Mobile Banking App)**
  - Engineered a high-security mobile banking application in React Native, optimizing complex financial workflows.
  - Implemented critical fintech security features, including biometrics and E2E encryption, and designed scalable components for rapid Agile delivery.

The Flock Frontend Developer | Feb 2024 – Mar 2025

- **Project: Tower Travel (Travel Platform)**
  - Developed and maintained a large-scale travel web platform, managing UI architectures across both React (Next.js) and Angular ecosystems.
  - Built reusable, high-performance UI components and optimized client-side API communication for complex routing.
  - Collaborated closely with UI/UX designers and backend engineers to deliver cohesive, user-friendly features.

Open Dev Pro Tech Lead & Full-Stack Developer | Nov 2020 – Feb 2024

- **Project: Andreani (Logistics & Supply Chain)**
  - Engineered scalable frontend architectures and enterprise tracking dashboards utilizing Angular and TypeScript.
  - Developed complex logistics modules, optimizing data rendering and RESTful API integrations to support high-volume traffic.
- **Project: Medifé (Healthcare Mobile App)**
  - Promoted to Tech Lead, directing a React Native squad in designing secure mobile architectures for a medical insurance application.
  - Optimized application performance and ensured compliance with medical data security standards, successfully reducing load times by 20%.
