SKILLS & TECH

- **Core & Mobile:** JavaScript, TypeScript, React, React Native, Next.js, Redux
- **Backend:** Node.js, Express
- **Databases:** SQL, PostgreSQL, MongoDB, DynamoDB
- **Cloud & Tools:** AWS (SQS, Lambda, CloudFormation), Git, Docker

LANGUAGES

- Spanish (Native)
- English (C1)

NATIONALITY

Argentine / Spanish (EU Passport)

EDUCATIONAL BACKGROUND

- **Full Stack Developer**
Henry Academy | 2020
- **Bachelor of Social Science**
Instituto Nuestra Señora del Socorro | 2019

WORK HISTORY

Coderio

Full-Stack Developer / React Native | Mar 2025 – Present

- **Project: Trakion (Logistics Platform)**
 - Spearheaded the development of a real-time fleet management platform utilizing React, Node.js, and TypeScript.
 - Architected and migrated event-driven backend services using AWS (SQS, Lambdas) and managed Infrastructure as Code via CloudFormation.
 - Implemented Poller-Worker patterns for efficient telemetry data ingestion, improving system reliability and monitoring capabilities.
- **Project: dLocal (Mobile Banking App)**
 - Engineered a high-security mobile banking application in React Native, optimizing complex financial workflows.
 - Implemented critical fintech security features, including biometrics and E2E encryption, to ensure regulatory compliance.
 - Designed scalable account management components, facilitating rapid feature delivery within an Agile environment.

The Flock

Frontend Developer | Feb 2024 – Mar 2025

- **Project: Tower Travel (Travel Platform)**
 - Developed and maintained a large-scale travel web platform using React and Next.js.
 - Built reusable, high-performance UI components and optimized client-side API communication.
 - Collaborated with UI/UX designers and backend engineers to deliver cohesive, user-friendly features.

Open Dev Pro

Tech Lead | Nov 2020 – Feb 2024

- **Project: Medifé (Healthcare Mobile App)**
 - Promoted from Trainee to Tech Lead, directing a React Native squad for a medical insurance application.
 - Designed the mobile architecture, ensuring performance stability and compliance with medical data security standards.
 - Optimized application performance, successfully reducing load times by 20%.
