- Teamwork, leadership, multitasking, creative, disciplined, love of learning.
- Front End Development

LANGUAGES

- Spanish (Native)
- English (C1)

NATIONALITY

Argentine / Spanish (EU Passport)

EDUCATIONAL BACKGROUND

- **Full Stack Developer**
Henry Academy | 2020
- **Bachelor of Social Science**
Instituto Nuestra Señora del Socorro | 2019

WORK HISTORY

Open Dev Pro: Tech Lead • Nov 2020 – Feb 2024

- Promoted from Trainee Developer to Tech Lead of a React Native squad.
- Led a mobile team building a high-impact medical insurance app, handling sensitive user data and complex healthcare flows.
- Designed and developed scalable mobile applications with React Native, ensuring performance and security compliance.
- Optimized performance, reducing load times and improving user experience by 20%.
- Collaborated with cross-functional teams (product, backend, QA) to ensure successful delivery in a fast-paced Agile environment.

The Flock: Feb, 2024 - Mar 2025

- Developing and maintaining a large-scale travel platform using React and Next.js.
- Built reusable, high-performance UI components to enhance user experience.
- Optimized API communication and client-side performance.
- Worked closely with UI/UX designers and backend engineers to deliver cohesive, user-friendly features.

Coderio: Mar, 2025 - Present

- Engineered and maintained a high-security mobile banking application using React Native for Dlocal, focusing on robust financial workflows.
- Implemented and optimized critical fintech security features (e.g., biometrics, end-to-end encryption) to ensure regulatory compliance and user data protection.
- Designed scalable and reusable components to support complex transactions and account management features, significantly enhancing application stability.
- Collaborated closely with backend and compliance teams within an Agile framework to facilitate rapid feature delivery in a regulated environment.
